Dan,

Our fishing experience with you exceeded my expectations. The two bodies of water we fished not only held plenty of fish, they were also beautiful areas. your advice, expertise, and just plain "down to earth" personality made it very comfortable for us to enjoy the trip.... not to mention that the food was delicious! I would and WILL fish with Dan again. Thanks again!

Dustin

Dan provided the two of us with a true natural wilderness fishing experience. We spent the morning on a small river that only a local would know, hiking into a waterfall with Dan guiding our way downstream catching Brook Trout along the way. After a hot lunch of grilled ham + cheese and home-made soup we launched his canoes on a wild trout pond miles from nowhere. This was one of the most unique and memorable fly fishing outings that we've ever experienced. Thanks Dan, we'll be back!

Dan,

Fished above Pontook Dam on the Androscoggin River with Dan after talking with him for several years at various shows. Extremely satisfied with our experience. He knew the area very well and put us immediately and constantly on fish, both in numbers and in size (in fact some of the largest smallies we have ever caught). He also provided one of the most pleasurable "shore lunches" we have had anywhere. Very knowledgeable about the fishery as well as equipment and flies. Definitely got our money's worth, would recommend Dan's guiding services without reservation.
